- Cross team collaborations for developing interdependent features
- Debugging high priority issues in client systems
- Technologies used 🅰️ Angular 8, ⚛️ React JS, 🅹 JavaScript, TS TypeScript, NodeJS, ⓔ ExpressJS, Git, and 👨‍🔧 Junkins

Software Engineer
G Gainsight, Hyderabad

March 2020 - 2022

- Developed and enhanced autonomous web applications and web components
- Worked at an independent level to build web pages from scratch
- Collaborated with clients to gather feature requirements
- Worked with architects to improvise UI modules
- Technologies used - 🅰️ Angular 8, ⚛️ React JS, 🅹 JavaScript, ☾ JQuery, 🅒 CSS, 🅗 HTML

Front End Engineer
🅣 Tata Consultancy Services, Hyderabad

June 2017 - 2020

- Maintained and enhanced web pages with advanced styling
- Developed object oriented JS modules that loads based on saved configurations
- Developed interactive and responsive JS components
- Migrated vanilla JS & JQuery apps code to object oriented components
- Enhanced page styles with advanced css and added animated look & feel
- Technologies used - 🅹 JavaScript, ☾ JQuery, 🅒 CSS, 🅗 HTML, ◇ Bootstrap

💡 Projects

Gainsight Assist - Chrome Extension for Gmail & App-in Outlook
G Gainsight

Users can access their Gainsight email templates directly from Gmail and provide the ability to log emails to Timeline from their inbox, thereby saving time and ensures that every important conversation is captured

🅰 Angular 8, 🇯🇸 JavaScript, 🇹🇸 TypeScript, 🄲 CSS, 🄷 HTML

- Uses vanilla JS with typeScript and object oriented methodologies
- Dynamically induced IFrames & Angular web components to use cross functional features
- Had to introduce service workers for API calls, sandboxing for template rendering, and webpack upgradations
- Dynamic bundling & deployments for both chrome extension & add-in

Gainsight Assist - Zoom Plugin
G Gainsight

Users can access their Gainsight. Customer 360 layout sections Timeline, People, Scorecard, Summary, and Attribute features directly within Zoom surfacing critical insights and enabling note-taking in real-time while on customer calls

🅰 Angular 8, 🇹🇸 TypeScript, 🄲 CSS, 🄷 HTML

- Built using Angular 8 with interactive and responsive designs with supports And-D UI components
- Built a provision to support dynamic and autonomous web components so other features can be onboarded quickly

Ng Web Component Registry
G Gainsight

Migrated all angular modules to web components to reduce page load time and helps individual features to be maintained as autonomous bundles

🅰 Angular 8, 🇹🇸 TypeScript, 🄰 Angular Elements, 🄲 CSS, 🄷 HTML

- Developed component registry services so all teams can onboard their modules as web component by using angular elements
- Migrated common modules like Header, Global Search, Chatbot etc., to ng web components

🎓 Education

B.Tech (Information Technology)

CVR College of Engineering

2013 - 2017

Percentage (66.2%)

- Ranked "CodeVita" competition with 126th place across globe
- Developed a project on IOT titled "Home Survey Lens" which was awarded as 2nd best project of our branch.
- Developed an Android Application project that can track airplane's status for "All India Hackathon" conducted in our college
- Achieved membership into 'Elite Coders Group' and gained special coding training session in our college

12th Intermediate

Narayana Junior College, Hyderabad

2011 - 2013

Percentage (80.2%)

- Festival event organizer in 1st and 2nd year

10th CBSE

Howard Public School, Hyderabad

2000 - 2011

CGPA (6.4)

- Sports and Events coordinator in class 10th
- Traffic and Pedestrian helper in class 9th
